<p>NOTES</p> <p>i. All banks' lending rates are calculated daily and debited or charged to the customers loan or overdraft account on a monthly basis.</p> <p>ii. Risk margins are based upon customer's loan grade and are added to the base lending rate to ascertain the applicable interest rate.</p> <p>iii. Small loans are mainly consumption type loans that banks approve up to a certain limit and interest rates are calculated on a flat rate basis. The effective interest rate would be much higher than the figure shown. (For more information, customers may consult their banks).</p> <p>iv. Default rate is charged above the applicable interest rate on default loans/overdrafts accounts (i.e. base rate plus risk margin plus default rate).</p>
