*with the exception of YEN and CNY which is YEN and CNY per USD

*with the exception of YEN and CNY which is YEN and CNY per TALA

Stronger USD on:

- Favorable economic data out of the US indicating a resilient economy;
- The global recession fears due to geopolitical tensions and surging inflation data bolstering investors demand for safety assets;
- The Federal Reserve flagging more rate hikes after raising interest rates by 75 basis points to 3.125%.

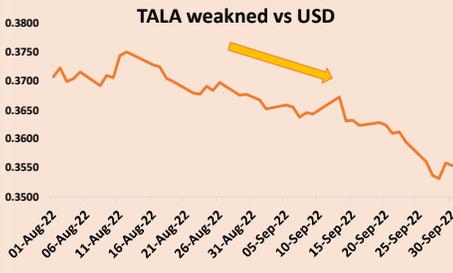

EUR traded below parity against USD on:

- Downbeat economic data release for the region;
- The lingering energy crisis in Europe sending the euroland into a recession;
- Russian President Putin's intentions to ramp up tensions with Ukraine further squeezing gas supplies to Europe;

AUD weakened vs USD on:

- The stronger US dollar and the weaker economic indicators out of the country;
- The risk off market mood on fears that the ongoing geopolitical tensions, China's prolonged economic slowdown and the red-hot global inflation reports from major economies may have a global spillover.

NZD slipped against USD on:

- The unfavorable economic releases;
- Commodity currencies becoming less attractive as recession risks continue to rise;
- Impacts of supply chain bottlenecks due to the suppressed demands from Europe and China;

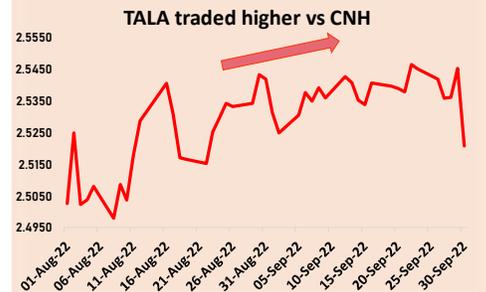

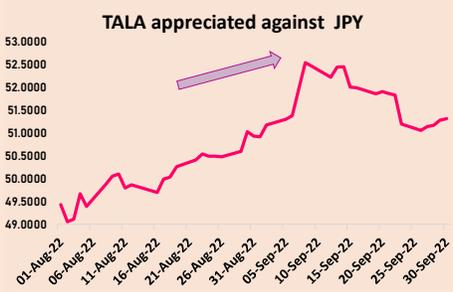

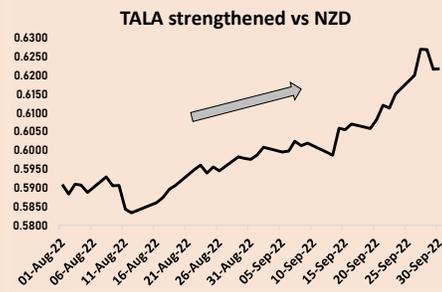

JPY depreciated vs USD due to:

- The downbeat economic data out of the region;
- Japan's economy pressured by the high level of inflation;
- the gap between the US aggressive monetary policy and the ultra-low levels maintained by the Bank of Japan;

CNH fell against USD reflecting:

- Disappointing economic releases out of China amid the continued economic disruptions in the country;
- Fresh lockdown measures in Chengdu showing signs of China's economy deteriorating for a notably long time;
- The US Biden administration continuing to slash tariffs on Chinese imports;
