# VISITOR EARNINGS & REMITTANCES REPORT

CENTRAL BANK OF SAMOA

## ABOUT THIS REPORT

This report is a monthly release of the latest available indicators on the tourism sector and remittances, with information sourced from the Central Bank, Samoa Bureau of Statistics and the Ministry of Customs.

## EXECUTIVE SUMMARY

Visitor arrivals and earnings fell in September 2026 as travel returned to normal after recent church conferences. However, both remained higher than a year ago. Remittances continued to grow, driven by higher inflows from Australia and New Zealand, providing ongoing support to households and the economy.

# VISITOR EARNINGS & REMITTANCES REPORT SEPTEMBER 2026

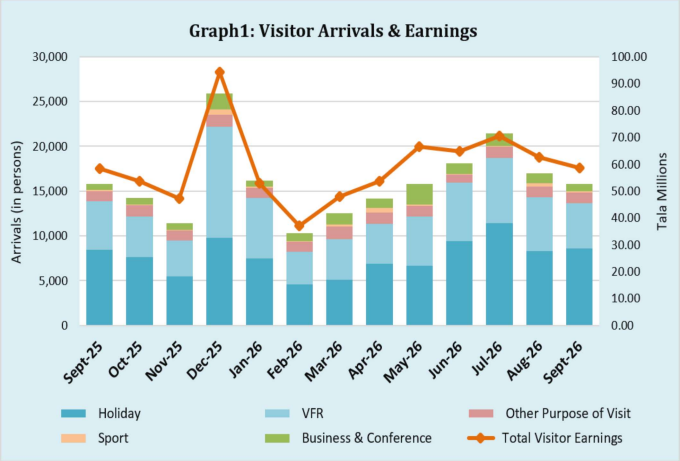

*This report is a monthly release of the latest available indicators on the tourism sector and private remittances, with information sourced from the Central Bank, Samoa Bureau of Statistics and the Ministry of Customs.*

*Report No.3: 2026/27* *September 2026*

## Visitor Arrivals[1] and Earnings

Total number of visitor arrivals for the month under review **declined further by 7.2 percent (or 1,223 visitors)** to a total of **15,802 visitors** over August 2026. Despite this drop, total arrivals was 0.1 percent (or 11 visitors) higher when compared to its level in September of last year. (See Graph 1)

The decrease in visitor arrivals over the previous month reflected a return to normal levels after seasonal hikes (for church conferences) in recent months.

The monthly decline in visitor arrivals was primarily driven by lower numbers from American Samoa, United States, Australia and 'Other Countries', by 551 visitors, 496 visitors, 320 visitors and 200 visitors respectively. In terms of travel by purpose, reductions were recorded for 'Visiting friends and relatives' (by 937 visitors), Business and Conference' (by 299 visitors' and 'Sports' (by 257 visitors).

Despite the drop in September 2026, total visitor arrivals in the first **three months of financial year 2025/26** totalled **54,309 visitors**, an increase of 4.2 percent (or 2,165 visitors) compared to the same period last year.

The average visitor's expenditure increased by 0.8 percent over the previous month. Despite the hike in average prices, total visitor receipts in September 2026 fell by **6.4 percent (or $4.0 million)** to a total of **$58.6 million.** However, it was 0.3 percent (or $0.2 million) higher than September 2025. However,

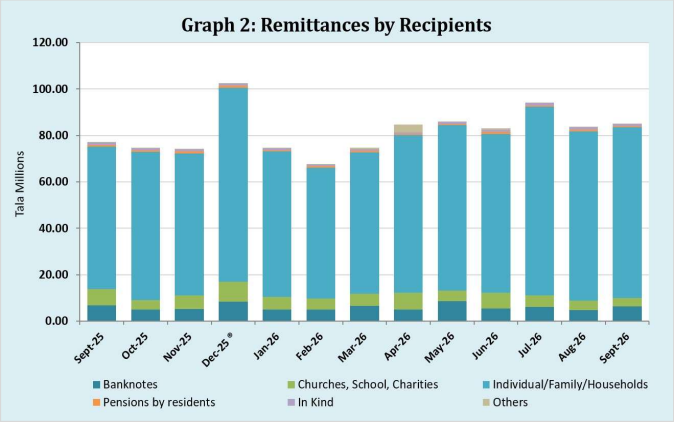

The monthly drop in visitor earnings was mainly due to lower spending by visitor from Australia (by $2.5 million), followed by American Samoa (by $1.5 million), 'Other countries' (by $0.9 million) and Europe (by $0.1 million). Similarly, earnings from visitors who were here for Visiting friends and relatives', 'Business and Conference', and 'Sports' fell by $4.8 million, $1.6 million and $0.5 million in that order.

For the first three months of **financial year 2025/26,** total visitor earnings rose by **4.7 percent (or $8.5 million),** reaching a total of **$191.7 million** compared to the same period in financial year 2025/26.

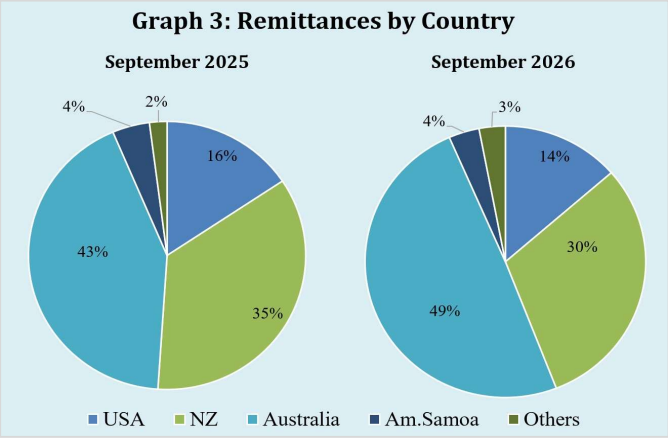

## Remittances

Total monthly remittances rebounded by **1.9 percent (or $1.6 million)** to a total of **$85.2 million** in September 2026. This was also 10.6 percent (or $8.2 million) higher when compared to the same month of the previous year. (See Graph 2)

[1] Samoa re-opened its border to international travelers on 1st August 2022. Cruise ship tourists are not counted as tourist as they are only in Samoa for less than a day but their spending are included as part of tourism earnings (travel credit).

The monthly increase was mainly due to higher transfers from Australia (up by $1.8 million) and New Zealand (by $1.2 million). By recipients, the growth was due to increases in transfers for 'Hand carried cash' (up by $1.4 million), 'Family and Households' (by $0.3 million) and 'Others' (by $0.3 million). (See Graph 3)

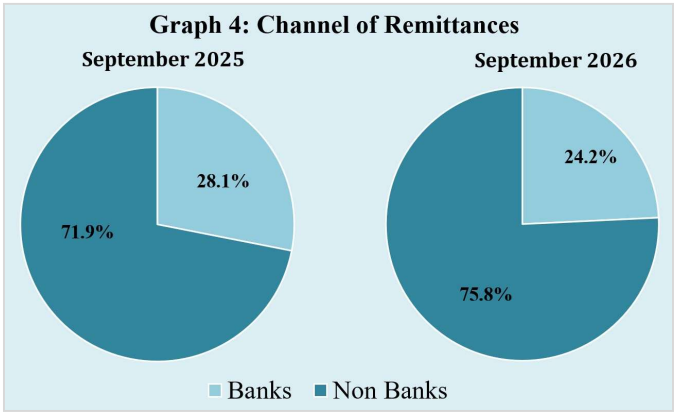

For the first **three months of financial year 2026/27,** total remittances reached **$263.0 million**, an increase of **13.6 percent** (or **$31.4 million**) compared to the same period in financial year 2025/26.

This growth was mainly driven by higher transfers from source markets such as Australia, United States, 'Other Countries' and New Zealand by $25.7 million, $3.8 million, $1.2 million and $1.0 million in that order. By purpose, transfers for 'Families and Households', 'In kind', 'Other purposes' and 'Hand carried cash' edged up by $34.2 million, $0.6 million, $0.4 million and $0.1 million respectively.

In terms of remittance channels, the share of funds received through Money Transfer Operators (MTOs) fell to 75.8 percent down from 81.0 percent in August 2026 and well above 71.9 percent in September 2025. Conversely, remittances via commercial banks increased to 24.2 percent compared to 19.0 percent in the previous month and 28.1 percent a year earlier.

Overall, non-bank channels remained the dominant channel, with traditional MTO transfers accounting for majority of inflows at 63.8 percent, down from 68.9 percent in the previous month and 68.5 percent in September 2025. Meanwhile, electronic MTO transfers (online platforms and mobile wallets) contributed 12.0 percent, slightly below August 2026 but higher than 3.4 percent in September 2025. (See Graph 4)
